A new perspective on Truth hundreds of years old.

Dear Sir,

Honorable James B. Comey,

You and truthful people like you, and one of them is your wife Patrice, keeps alive the hope for a better future based on truth. We are thankful for your service.

After watching your interviews and reading A Higher Loyalty I feel compelled to bring to your attention an aspect of truth that has received little attention, if any which is the astounding revelations of the Holy Quran that God Almighty is The Truth, Clear, Alive and Forever. (Quran XXIV: 25, II: 255).

Knowing and accepting this fact makes it possible to remove the confusion in our beliefs upon which depends every important step we take in life. Communication with our children, relatives and friends finds a clear basis, dialogue between religious groups gains a new footing and the divide between religion and science melts away.

My children have no baffling images of our Creator and do not need to ask “who created God” nor will they associate family members to Him. Truth is One and has no alternatives.

Our highest loyalty is obviously to The One who created us; The Ultimate Living Truth.

People who wish to remain in power are uncomfortable with truth. They rule by creating confusion which finally must lead to failure. They have governed with the support of the religious establishments which has not only ruined them but has given religion a bad name.

The word Al Haqq meaning Truth is mentioned 227 times in The Holy Quran; twice the number of His Grace and Mercy that adorns every chapter.  
Nawabiletters.com

That one word; Al Haqq means The Truth, Justice, Rights and Reality not only in Arabic but also in Persian, Urdu and Pashtu.

The fact that every ideology and nation claims truth as its foundation is a very hopeful sign. It tells us there is a disdain for falsehood and at least a recognition that truth is inescapable. We must be headed in the right direction.

There is no other choice than reliance on Truth to achieve anything of value. With the love of truth and by adhering to it the “impossible” can be achieved.

You might ask why I am writing this to you.

I would like to announce it from every roof top. I have written to those who say they love the truth now I am writing to those I believe do love the truth. May be I will be lucky and draw attention to something precious that has been said for hundreds of years.

When talking to my grandchildren about God I do not have to twist myself out of shape in explanations, they have already grasped what I had to say. It is most gratifying to see the clarity and confidence in their eyes. Would I not want that for your children and grandchildren?

The message you are conveying by your words and deeds has a basis much deeper and greater.

Most sincerely,

Ismat U Nawabi MD.
